Shadow Puppet Edu

App Overview

Designed with kids in mind, Shadow Puppet Edu is an iPhone & iPad app that makes it easy to capture and share student work.

Students can make videos to tell a story, explain an idea, or document learning. It's also a quick way for teachers to create videos for a flipped classroom or keep parents in the loop.

Getting Started with Your Class

When you first launch the app, a quick tutorial that walks you through the video creation process. You can share this video with your class. Access it anytime by tapping the ? icon on the top right of the home screen.

Try printing out our Storyboard Worksheet to help students better plan out their videos.

App Features

- Combine photos and video clips
- Record voice over narration
- Add text titles
- Draw on screen
- Edu image search and web image search
- Map and satellite map search
- Easily share videos with parents and students
- HD video export
- Upload to Google Drive, Dropbox, Youtube

Web Image Search in App

Search educational sources like Library of Congress, British Library, Met Museum of Art, NASA and NOAA for images to add to videos. Or search Flickr Creative Commons, Wikimedia Commons, Web Images, Animated GIFs or ClipArt for content to include in videos.

Strict safe search filters are in place. Search can be disabled. Automatic image citation feature.

Common Core Aligned Activities

Find 30+ activity ideas inside the app for English/Language Arts, Math, Science, History/Social Science, Art and Foreign Language classes. Easily customize ideas to your students' learning level and curriculum.
